PRODUZIONE INTERNA E MASSIMA CURA DEI DETTAGLI

INTERNAL PRODUCTION AND MAXIMUM ATTENTION TO DETAILS

COS.PEL. svolge al suo interno tutte le fasi del processo produttivo: la **progettazione degli stampi**, lo **stampaggio**, la **rifinitura** e la **verniciatura** dei prodotti.

L'intero ciclo produttivo è seguito da personale tecnico altamente qualificato utilizzando macchinari di ultima generazione.

Superato il controllo qualità, gli articoli vengono immagazzinati tramite il nuovo sistema di gestione automatica del magazzino: **COS.PEL. Store**.

COS.PEL. carries internally all steps of the production process: **molds design**, **production**, **finishing** and **painting**.

The whole production process is managed by high-skilled people using modern machineries and technologies.

Passed all quality checks, the products are stocked through the company's dynamic warehouse management system: **COS.PEL. Store**.

SOSTENIBILITÀ AMBIENTALE: UNA PRIORITÀ, DA SEMPRE

ENVIRONMENTAL SUSTAINABILITY: A PRIORITY, SINCE THE BEGINNING

Cerchiamo di portare un piccolo contributo ad un modello di crescita più equo, **valorizzando fonti energetiche presenti in natura** e trasformandole in energia senza immettere in atmosfera sostanze nocive per l'uomo e per l'ambiente.

Utilizziamo un sistema circolare virtuoso per il **risparmio delle risorse energetiche**. L'acqua e l'aria calda derivanti dal processo produttivo vengono prima utilizzate per riscaldare lo stabilimento e successivamente reintrodotte all'interno del ciclo produttivo per raffreddare gli impianti.

Questo **ciclo continuo**, così come **l'impianto fotovoltaico**, ci permette di offrire un **prodotto sostenibile**, che soddisfi i clienti di oggi aiutando il loro benessere di domani.

We try to play an active role and make a real contribution in building a fair growth model by **developing and producing renewable energy from natural resources**, that would otherwise be wasted, at zero impact for the environment and the people.

We set in place a **circular system** aimed at **minimizing the use of energy resources**. Warm water and air resulting from the production process are used first to heat the building and then reintroduced into the production process to cool company's installations.

This **continuous circular system**, together with our **solar power plant**, enables the company to offer a **sustainable product** able to meet customers' current needs while preserving their future health and wellbeing.

CO2

PRODUZIONE ANNUA
YEARLY PRODUCTION
= 1.000.000 KWh

—● **Sufficiente a soddisfare il fabbisogno energetico dell'azienda.**
Able to cover the whole company's energy need.

RISPARMIO EMISSIONI
CO₂ SAVINGS
= 500.000 Kg

—● **Corrisponde alla preservazione di 20.000 alberi.**
Equivalent to preserving 20.000 trees.

LE NOSTRE CERTIFICAZIONI

OUR CERTIFICATES

INFORMATIVA SUI PRODOTTI

PRODUCT MEMO

L'utilizzo di marchi d'impresa di terzi, così come dei riferimenti originali inclusi, presenti in questo catalogo, ha la sola ed esclusiva finalità di indicare la destinazione di pezzi di ricambio o accessori, consentendo quindi l'identificazione del prodotto in questione (così come espressamente disciplinato dall'art. 14 del Regolamento Europeo 2017/1001 e dall'art. 21 del Codice Proprietà Industriale Italiano, D.lgs. 30/2005).

Si evidenzia che tutti i prodotti presenti in questo catalogo non sono originali ma perfettamente compatibili ed intercambiabili con essi. Inoltre, tutti i prodotti presenti in questo catalogo sono impiegati ed utilizzati solamente per veicoli già immessi in commercio all'interno dello Spazio Economico Europeo e solo dopo autorizzazione da parte del proprietario del veicolo in riparazione.

L'applicabilità di eventuali diritti di proprietà intellettuale (brevetti, design, marchi, diritti d'autore, etc.) alla vendita dei nostri prodotti (carrozzeria, fanaleria, specchi e altri accessori) è diversa nei vari Paesi. Eventuali infrazioni delle legislazioni locali di Paesi terzi sono da attribuirsi esclusivamente a carico dell'importatore e/o rivenditore nel Paese finale di distribuzione.

The use of third-party trademarks as well as of the OE references included, present in this catalog, has the sole and exclusive purpose of indicating the destination of spare parts or accessories, thus allowing the identification of the product under analysis (as expressly permitted by art. 14 of the European Regulation 2017/1001 and art. 21 of the Italian Industrial Property Code, Legislative Decree 30/2005).

To be noted that all items included in this catalog are not original spare parts but perfectly suitable and interchangeable with them. In addition, all items included in this catalog are used on vehicles already placed on the market within the European Economic Area and only after the authorization of the owner of the vehicle being repaired.

The applicability of any intellectual property rights (patents, designs, trademarks, copyrights, etc.) to the sale of our products (body parts, lamps, mirrors and other accessories) is different in each Country. Any infringements of local laws of third Countries are to be attributed exclusively to the importer and/or retailer in the final Country of distribution.
